## INDUSTRIAL NOTES.

A Lumberman's Views as to the Outlook of His Industry.

RESULTS OF SHORTAGE IN SNOW.

Michigan Saw Mills Closing Up for Lack of Materials.

JOBBING PRICE ALREADY HIGHER

OFFICE OF THE PITTSBURG DISPATCH, TUESDAY, February 5, 1889. An interview with a representative of one of our jobbing lumber firms developed some facts of interest as to the situation and outlook of this industry which are here jotted down. The gentleman interviewed has recently returned from an extensive trip through the lumber regions of Michigan and Pennsylvania. Following is the substance of his statements: "The failure of the snow crop up in Michigan has not been as damaging as might be supposed. Many of the large lumber firms throughout that State are provided with tramways, by which their these see the state of the s logs are brought to the mills, sometimes a distance of 20 to 25 miles. Heavy snows are, in fact, an obstacle to lumbermen thus provided. I know of one Michigan lumber firm whose exenses last winter amounted to \$40 per day keeping their tramways clear of snow. This season the same firm has been enabled to bring its logs to mill without this expense.

#### Snow Badly Needed.

"It may be that one-half of the Michigan lumber that reaches the markets of the world is dependent upon snow. This half has found hard roads to travel this winter. Vast quanti-ties of logs still remain in the interior forests,

ties of logs still remain in the interior Torests, waiting in vain for the snow that has not put in an appearance. More than two-thirds of the logging season is gone, and it will be impossible now to bring the average quantity of lumber to the markets.

"I saw as many as five of Porter's Pittsburg engines in different sections of the Michigan lumber region diligently at work carrying logs to mills. To the firms thus provided the season has been all that could be desired, but lumber men, depending on the snow, do not enjoy this winter's weather.

'Another factor which is becoming stronger every year is the diminishing supplies of lum-ber through Michigan. I know of one firm, owing 250,000 acres of timber land, which will owing 250,000 acres of timber land, which will be obliged to wind up this year because their forests are all cleaned up. This firm for the past 15 or 20 years has produced on an average 60,000,000 feet of lumber annually. This year will wind up their business, with a production of 25,000,000 feet. At Grand Rapids I visited five lumber offices, which are about winding up for want of timber. Some of the lumber firms are seeking other forests worlds to conquer in the cypress and pine lands of the Sunny South and on the Pacific slope in Washington Territory.

Pennsylvania Affected.

"The failure of snow has been a more serious item through the lumber regions of Pennsylvania than Michigan, In Clearfield county and in the neighborhood of Tidioute I found any quantity of logs waiting for the shows to come that they might reach their destination. come that they might reach their destination. Fully three-fourths of the logging done through that region is done on the snow, and as there has been practically no snow this winter, the quantity that can get to market will be far below the average. The result of this is already seen in firmness of prices. It is too carly for much advance, but people may as well make up their minds to the fact that they will have to pay more for lumber this coming season than last. A dealer who purchased one and a quarter million feet of hemlock lumber recently was offered \$300 by the seller not to take it. I was compelled to pay 75 cents a thousand

Br Telegraph.

New York—Beeves—Receipts, 30 carloads for city slaughterers' direct, and 10 carloads for exportation alive, and 12 carloads carried over yesterday; no trading in beef cattle; dull for dressed beef at 35.67, with a few choice sides up to 73.67.5c. To-day's cable from Liverpool quotes American re-rigerator beef firm at 5'ce per pound. Sheep—Receipts, 900 head; 4,500 head were carried over yesterday; extremely dull, with sellers and buyers wide apart, and with less than one-fourth of the offerings changed hands. The limited trading was at 34.655 for poor to fair sheep, and 68.75 for ordinary to good lambs; dressed mutton steady at 73.685 for dressed lambs slow at 85.609.5c with verf few above 10c. ### HE SAW BLOOD ON THE MOON.

#### A Madman Viciously Attacks and Fatally Wounds a Pennut Veuder.

BALTIMORE, February 5 .- A madman last night stabbed an iffnoensive peanut vender here, who, from the injury received, died to-day. "I see blood, blood on the moon!" excitedly exclaimed Lee Willey, a young man who came here from Gloucester Point, Gloucester county, Va., last night, shortly before 8 o'clock, as he danced about wildly in the cabin of the pungy Silver Star, lying at Pratt street wharf. He had alternately sung, danced and cried. After making the sanguinary exclamation he suddenly bolted out of the cabin and went across Pratt street to Calvert street, where Prancis Valentine has for 35 years kept a fruit and candy stand. Going up to the stand Willey took a handful of peannts from a tray. The old man remonstrated, when Willey, without a word, rushed over to the opposite corner and, breaking open a shortly before 8 o'clock, as he danced about to the opposite corner and, breaking open a glass case at the stand of William ulled out a broad sheath knife with a blade

five inches in length.

Hill attempted to seize him, but the fel low made a stroke with the knife, cutting Hill's coat at the shoulder. Not satisfied with this, he made another swipe, completely severing Hill's contrails. Willey then dashed over to Valentine and hurled him to the ground, after which he hacked and slashed the head of the old mon in a frightful manner. It took three men to drag the madman away from his victim, and he was only secured after a severe struggle.

THE hair dressed with Barry's Tricopherous will never decay, fall out or lose its

#### MARKETS BY WIRE.

Wheat Firmer Under the Influence of Colder Wenther-Corn Stronger, for Near Futures - Pork Active and Stendy-Lard Unsettled.

CHICAGO. — Trading in wheat to-day was more active, and the market was rather excited. There was active covering by shorts, and the various advances were met with more or less realizing. An unsettled feeling existed, and while the May delivery maintained a fair advance over yesterday's closing, the July fu-ture, after ruling higher, sold off very sharply to a point below the closing yesterday. A continuation of yesterday's firmness, influenced by the sudden change to colder weather, carried prices at the opening 1@14c above yesterday's closing, then sold off with frequent fluctuations closing, then soid off with frequent intertactions under free offerings lc, but later rallied 1%c for May, receded 1%c and closed about 3%c higher than yesterday, while July closed 3%c lower. The firmness was due in part to the strong tone

of European advices.

Corn only moderately active. The feeling was firmer in the near futures, while the more de ferred deliveries showed little change from yesterday. The market opened at yesterday's closing prices, and under a fair demand ad-vanced 14614c, and ruled quiet and inactive, losing lic higher than yesterday.

The market opened firm at 10c advance and was followed by further appreciation of 5@7%c. Later the offerings were increased somewhat and a reduction of 15@17% was submitted to. Near the close prices rallied 10@12%, and

Near the close prices railied 10@125c, and closed steady.

Quite a liberal business was transacted in lard, and especially during the early part of the day. The market opened rather firm at 5@75c advance, but this was lost during the early part of the day. Later the market ruled firmer and prices railied again and the market closed steady.

A fair trade was reported for short ribs, and the feeling was stronger. Prices were advanced 5@10c per 100 pounds early in the day, but a reduction of 5@74c was submitted to later. Near

A fair trade was reported for short ribs, and the feeling was stronger. Prices were advanced 5@10c per 100 pounds early in the day, but a reduction of 5@7\squares was submitted to later. Near the close the market was steady and prices rallied 2\squares @5c and closed quiet.

At the Produce Exchange to-day the butter market was steady; fancy creamery, 27629c; choice to fine, 29622c; fine dairies, 29622c; good, 18620c. Eggs weak at 136184c.

below the average. The result of this is already seen in firmness of prices. It is too carly for much advance, but people may as well make up their minds to the fact that they will have to pay more for lumber this coming season than last. A dealer who purchased one and a quarter million feet of hemlock lumber recently was offered \$300 by the seller not to take it. I was compelled to pay 75 cents a thousand more for the \$200,000 feet I bought for our Pittsburg firm than it would have cost me last winter. All signs point to an advance in all kinds of lumber for the season just before us. Those who have houses to build may as well accept the situation and prepare for the rise which cannot be far away."

### WANT OF FORESIGHT.

How an Old-Time Citizen Allowed a Big Fortune to Escape Him.

A NOTABLE REAL ESTATE DEAL. Stocks Flat and Petroleum Floundering in

the Slough of Despond. HOUSE HUNTERS ON THE WARPATH

About 1850 two well-known business men of that day formed a partnership in Pittsburg. One of them laid down the burden of life many years ago, full of years and honors. The other passed away quite recently. At the time of his death he was President of one of the richest banking nstitutions in the city. In the course of business they became involved in a transaction in which they were likely to lose a large amount of money, and to save themselves as much as possible, and to reduce the loss to a minimum, they took a ten-acre tract of land between Lawrenceville and Shadyside—the exact location is not material to the narrative—on the theory that a little was better than nothing. They accepted the land under protest, but as it was all they were likely to get from their embarrassed customer, they finally agreed to his proposition and became owners of what they supposed was a piece of worthless property, that would

soon be eaten up by taxes. A few years later the senior member of the firm retired from business. In the course of the settlement consequent upon the dissolu-tion, he made a proposition to his partner to give or take at the rate of \$8,000 for the property in question, which was still supposed to be a poor investment. The junior member, without a moment's hesitation, accepted \$4,000 for his halt, and left the property on the senior's hands. He held it until just before the com-mencement of the civil war, when he sold the entire tract of ten acres for \$10,000-a big specdation, as he thought. From that time on, as the city grew in that direction, the property thus transerred at what was thought to be a big figure, continued to increase in value. To-day it would bring \$200,000 under the hammer. It is within a stone's throw of a tract that reently sold for \$30,000 an acre.

This incident points a moral as well as adorns

a tale. It shows the rapid advance of property in the suburbs during the past two decades. What was then a "drug on the market" is now jumped at with as much avidity as a fish manifests in pursuit of a favorite fly. It also illustrates the losses that are daily sustained by the oss of business foresight-which is a natural instinct and not the result of education, and which is possessed by very few persons. The site occupied by the great city of Chicago was offered to a trapper for a gun and half a dozen or so of beaver pelts. He lived to regret his re-

fusal. There are still as good opportunities for making money as at the time of the transaction related above, the only difference being that larger capital is required. In the language of a real estate agent well known for making lucrative investments, "Those who buy land now and rich citizens of the future."

## STORM AND FINANCE.

Business Men Unwilling to Face the Inclement Elements-Chenp Money. "We are not crowded with business to-day, said a veteran banker yesterday afternoon. "The weather is too had for the people to come out. I have just been down to Fifth avenue, and got enough of it. I don't blame anybody for staying at home. I have some private busi-

ness that needs attention, but I will put it off until to-morrow."

Everybody seemed to feel and think with the speaker. Business at the financial centers was quite slack. Checking was the only feature. This made a good showing in the Clearing House report, the exchanges being \$2,080,772 85 and the balances \$308,809 13. Loanable funds are in abundant supply, and rates are barely

of \$6,000.

Samuel W. Black & Co., 99 Fourth avenue, sold to L Lyman for \$2,500 a lot 40x120 feet on the south side of Howe street, between Shady avenue and Denniston avenue, Twentieth ward.
C. Baltensperger & Co., 154 Fourth avenue, sold for Mrs. Benitz to S. D. Herron, Jr., of the Fourth National Bank, three lots, each 24x100, on Webster avenue, near the terminus of the Center avenue car line.

#### BRITISH WOOL AND WOOLEN GOODS. Interesting Facts and Figures About the

Trade During the Past Year. Commenting upon the British trade in wool and woolen goods, an English exchange says: During the past year Great Britain imported about 622,000,000 pounds of raw wool, alpaca and goat's hair—namely, 430,000,000 from Australia, 83,000,000 from the Cape, 35,000,000 from India, 59,000,000 from Europe and 30,000,000 pounds of wool from other sources, beside 4,500,000 pounds of alpaca and 21,500,000 pounds of goat's hair. In comparison with these figures, the importation from Germany and other European countries appears almost insignificant. On the other hand, Great Britain exported about 80,275,000 pounds to Germany, 30,000,000 to Holland, 77,500,000 to Belgium,

85,275,000 to France, 61,250,000 to the United States and a certain quantity to other coun-tries, which, altogether, left 323,000,000 pounds tries, which, altogether, left \$23,000,000 pounds for our home consumption.

As regards the transformation of this raw material, Great Britain exported 42,500,000 pounds of woolen yarn, which probably left a profit to exportrade in this article of fully £2,000,000. The exportation of woolen tissues from Great Britain amounted to about £6,250,000 yards, valued at nearly £18,000,000. The principle outlets for these tissues were Germany, 2,275,000; Holland, 1,250,600; Belgium, 1,000,000: France, 3,000,000: North America, 5,500,000. The remainder being mostly disposed of in South America, British India, China, Japan, and Australia, When compared with the importation from various countries, we find a balance in favor of the British exports amounting to nearly £15,000,000.

## LOSING INTEREST.

Wall Street Securities Show a Weak Front - Grangers Dumped - Almost Everything Closes Lower-Railrend Bonds Strong

and Active. NEW YORK, February 5.-The stock market suffered a further diminution of interest to-day and the amount of business done underwent a further reduction. There was considerable selling of the Grangers for the account of the Westerners, and the general opinion was that it was short stock, but no marked selling movement occurred in any other direction, and while under the uncertainty of the Western situation prices were allowed to sag, there was little or no long stock coming out. The feature of the day was the strength displayed in Gleveland, Columbus, Cincinnati and Indianapolis Big Four and Clresapeake and Ohio, especially the first named stock.

The decrease in the amount of business done was very noticeable in the early dealings, and first prices were generally from 1/2% per cent lower than last evening's figures. Cleveland, lower than last evening's figures. Cleveland, Columbus, Cincinnati and Indianapolis and Pullman showed some strength in the first hour, but the rest of the list moved off slowly on a very moderate business, and before noon the market had become positively dull. Michigan Central was quite weak before noon, but the rest were unsettled and generally heavy, slowly settling down.

This state of affairs lasted throughout the session, without special feature of any kind, except a buying movement in Oregon Transcontinental in the last hour, which induced some little advance in the rest of the list. The market closed dull and rather heavy, generally at something better than the lowest figures. Almost everything is lower this evening, though the losses are for fractional amounts only.

Railroad bonds were somewhat more active to-day, the sales of all issues aggregating \$2,892,000, of which Atlantic and Pacific incomes furnished \$181,000, Chesapeake and Ohio currency certificates \$128,000, and Reading fours \$116,000. There was a more generally strong tone to the dealings to-day, and some of the weak bonds of yesterday recovered their losses.

Among the most marked movements Colo-

steady at the regular quotations. A loan of \$10,000 was made at 5 per cent on first-class collateral.

Belgium as a Market. The Antwerp correspondent of the Glasgow Mail says that during the first ten months of 1888 the import trade of Belgium amounted to nearly 1,084,000,000 frs, or 9 per cent more than during the same period of 1887. The exports, on the contrary, remained almost stationary, and figured for about 885,500,000 frs. The de and ngured for about 880,000,000 frs. The de-mand for raw material continues to be very ac-tive in Beigium, especially as regards coal, guano, vegetable oils, and metals; but the trade in drills, rags, cotton, wool, silk, and old iron has decreased of late. Beigian manufactures continue to meet with an active demand, more particularly firearms, machinery, tissues and glass.

Metal Markets. New York—Pig iron quiet. Copper dull and a trifle firmer: lake, February, \$16 50. Lead quiet and steady; domestic, \$3 77½. Tin weaker and quiet; straits, \$21 70.

Business Notes MORTGAGES continue to absorb surplus money in this vicinity. The usual rate is 6 per

tirely suspended by the bad weather of the past week or ten days. A MEETING of real estate dealers has been called to consider the exchange project. It promises to materialize in due time. THE penny savings fund scheme was dis-

cussed by several gentlemen on Fourth avenue yesterday. They thought it would be a good thing for the street Arabs. THE newly elected directors of the Pittsburg Insurance Company are: Messrs. Charles Ar-buthnot, James Gordon, Alexander Bradley, James S. McCord, James Collord, Max. K. Moorhead. John Fullerton, James McCutcheon, John Daub, John Scott, R. J. Wilson, Henry Lloyd, Allen Kirkpatrick, Hillis McKown.

### LATE NEWS IN BRIEF.

-A sensation has been created in Buffalo by the statement that the big fire of Saturday was the work of Anarchists. —The Secretary of the Treasury yesterday afternoon accepted the following bond offers: Registered 456s, \$169,000 at 109. The Committee on Military Affairs of the House has directed a favorable report on the bill granting to the Big Horn Railroad Company right of way across the Fort Custer, Mont., reservation.

-The safe in the postoffice at Edwardsville, Ill., was blown open by burglars Monday night, and robbed of several hundred dollars in money and the contents of registered packages, amounts unknown. —A terrible accident occurred shortly after midnight Monday on the Lowell Railroad, near the Prospect street station in Somerville, Mass, whereby an engineer lost his life and a fre-man, brakeman and conductor were seriously

if not fatally injured. —At a meeting of the New England Agricul-tural Society, at Boston, in which all the New England States were represented, a resolution was passed requesting President-elect Harrison to call Dr. George E. Loring to the office of Secretary of Agriculture.

-The revenue cutter Richard Rush has brought to San Francisco port the British schooner Pathfinder and the American schooner William W. Rich, both of which vessels were captured in Drakes Bay while illegally engaged in scaling. Both schooners cleared from Vio-toria, B. C.

—Justice McMahon, of Toronto, yesterday gave judgment in the case of Edward Fistcher, of Kankakee, Ill., releasing the prisoner from custody. Fistcher was held on a writ of capias in a suit brought against him by William Rice to recover \$20,000 damages for alienating the affections of Rice's wife. The statement of the Oregon Railway and Navigation Company for December, 1888, shows earnings \$525,534, decrease \$14,315; expenses \$407,559, increase \$134,386. The statement for 1888 shows earnings \$6,378,796, increase \$1,033, 538; expenses \$4,023,855, increase \$1,184,189. Sur-plus \$2,350,911, decrease \$180,641.

—In view of the insufficient evidence produced to support the charges made by Representative Steele, of Indiana, against Judge Bond, of Arizona, as a basis for impeachment proceedings, the House Committee on the Judiciary, after discussing the matter yesterday, declined to enter upon the consideration of the case at wresent. of the case at present.

DOMESTIC MARKETS.

A More Cheerful Tone to Talk of Produce Commission Men.

EGGS CONSIDERABLY MIXED NOW.

Cereal Markets Steady, Prairie Hay Firm, Timothy Weak.

WARSAW GRAIN DEALER'S VIEWS

OFFICE OF PITTSBURG DISPATCH,

TUESDAY, February 5, 1889. Country Produce, Jobbing Prices. The tone of talk from commission m more hopeful than for some weeks past. Said one whose expressions for a month past have been uniformly blue, "I did more business yesterday than any Monday for a month or more." Another said, "We already feel the good effects of the settlement of the coal diggers' strike up the river. Since the miners have gone to work, buyers are here in greater number. The mining and coke regions of the Monongahela being among our best customers, we feel at once the good effects of these settlements between capital and labor." Our quotations for eggs are again lowered. This is the time of the year for mixing of eggs in order to dispose of that which is doubtful. A sure article all through will bring a shade above 15c. Said a leading jobber, "One of our best customers is glad to pay 16c for eggs that are en tirely reliable, and such are cheaper than much that is going for choice." "Things are not always what they seem," and so-called choice eggs are at this time not a little mixed.

SKIN, SCALP AND BLOOD

Diseases Cured by Cuticura Remedies When

Hot Springs, Doctors and All Other Medicines Fail. Having been a sufferer for two years and a half from a disease caused by a bruise on the leg, and having been cured by the CUTICURA REMEDIES when all other methods and remedies failed, I deem it my duty to recommend them. I visited Hot Springs to no avail, and tried several doctors without success, and at last our principal druggist, Mr. John P. Finlay (to whom I shall ever feel grateful), spoke to me about CUTICURA, and I consented to give them a trial with the result that I am perfectly cured. There is now no sore about me. I think I can show the largest surface where my sufferings sprang from of anyone in the State. The CUTICURA REMEDIES are the best blood and skin cures manufactured. I refer to Druggist John P. Finlay and Dr. D. C. Montgomery, both of this place, and to Dr. Smith, of Lake Lee, Miss.

ALEXANDER BEACH, Greenville, Miss.

Mr. Beach used the CUTICURA REMEDIES, at our request, with results as above stated.

A. B. FINLAY & CO., Druggists.

SCROFULA 7 YEARS CURED. I have been troubled with scrotnla seven years, which first started on the top of my head, giving me infinite trouble, with constant itching, casting off of dry scales, and a watery liquid exuded from under the scales. I treated liquid exuded from under the scales. I treated it for seven years unsuccessfully, and was unable to check it until I found your CUTICURA REMEDIES. One box CUTICURA, one cake CUTICURA SOAP, and one bottle CUTICIRA HESOLVENT completely cured me, my skir, becoming periectly clear and smooth.
